EDUCATION

2021 - 2022

PUNJAB COLLOGE QUAID CAMPUS

- Inter in Computer Science

2023 - 2027

SZABIST UNIVERSITY -ISB

- Bachelor of Computer Science
GPA: 3.50 / 4.0

SKILLS

- Full Stack Development
- Languages: (C++, Java, Kotlin, Python, Spring Boot, HTML, CSS, Javascript)
- Frontend Development: (REACT.js, Thymeleaf)
- Backend Development: (NODE.js, RESTful APIs, MVC, MySQL/PostgreSQL)
- Tools & Testing: (IntelliJ IDEA, Andriod Studio, VS code, Postman, AWS Console)

LANGUAGES

- English
- Urdu
- Sindhi

ABOUT ME

Full-Stack Developer | AWS Cloud Practitioner Passionate Web Developer with a strong foundation in React.js, Node.js and Spring Boot. Proven track record in building and deploying secure, full-stack applications on AWS using VPC, RDS, and EC2. Adept at writing clean, testable code and dedicated to creating responsive user experiences that bridge the gap between complex backend logic and intuitive frontend design.

WORK EXPERIENCE

Web Developer

- Developed and optimized responsive web components using React.js and HTML/CSS, improving user engagement.
- Assisted in backend integration using RESTful APIs and MySQL, contributing to the development of secure data-handling features.

Full-Stack Development

Full-Stack Cloud Deployment (AWS)

- Architected and deployed a production-ready full-stack application on AWS utilizing a secure VPC with public/private subnets.
- Implemented HTTPS/SSL security via Let's Encrypt and configured a custom domain to ensure end-to-end data encryption.
- Managed backend services using EC2 and RDS (PostgreSQL/MySQL), handling scalable database operations.

User Management & Database Service

- Built a backend system using Spring Boot and Java for secure user data persistence and management.
- Applied MVC architecture and implemented Spring Data JPA for efficient database interaction and CRUD operations.
- **Git Hub**: <https://github.com/twahadayo88-cloud/userinfoDB>

EduPlanner (Academic Management App)

- Developed a mobile-friendly application aimed at improving student organization and lesson planning.
- Utilized Android Studio and Kotlin to build an intuitive UI, focusing on academic scheduling and task tracking.
- **Git hub** : <https://github.com/twahadayo88-cloud/EduPlanner>

Personal Portfolio Website

- Deployed via Netlify with a focus on high-speed performance, SEO optimization, and interactive UI components.
